

HYTEC BLUE NITRILE GLOVES, POWDER FREE - LARGE

Manufactured from 100% Nitrile (Acrylonitrile-butadiene), our powder free blue gloves offer excellent resistance against a spectrum of chemicals, solvents, oils, and grease. The soft formulation ensures an excellent feel, fit, and comfort, and the latex free formulation means that wearers are less likely to develop skin allergies. These gloves are ideal for a variety of applications, including laboratories, medical, dental, food handling, food processing and much more. FDA Approved.
