

RECYCLABLE WATER CUP 200ML WHITE

Recyclable Water Cup 200ml White is a high-quality, eco-friendly option designed for various uses, including cafes, bars, water dispensers, and events. Made from durable polypropylene (PP), these cups are lightweight yet rigid, ensuring they won't splinter upon impact. They are suitable for both cold and hot beverages, making them versatile for different settings. The cups are designed to fit standard water cup dispensers and are hygienically packed for food safety. These recyclable cups contribute to a sustainable environment by supporting circular use within current recycling infrastructure.
