

OXYGEN PRO GRANDE CARTRIDGE - NEUTRALOX

Discover unparalleled non-fragrant odour control with the Oxygen Pro Grande Cartridge - Neutralox. Powered by Oxy-Gen, this system guarantees effective odour control. The advanced technology, based on pharmaceutical-grade fuel cell technology, ensures precise and consistent odour neutralisation delivery throughout the cartridge's life.

Compliant with CARB, EU, IFRA & REACH regulations, the cartridge includes non-fragrant odour control with super strength odour counteractant.

Effective fragrant odour control is enhanced by Neutra-lox, a proprietary odour eliminator effective against various odours. The cartridge is safe, containing no added solvents or alcohols, making it suitable for any facility. Its eco-friendly design excludes CFCs, VOCs, or propellants, offering a constant, discreet, and noise-free odour control. After use, safely dispose of the cartridge in a plastic recycling bin.
